

cleanclicks

Safe Self Ordering and Payments Solutions

How will CleanClicks help you and your customer?

ORDER AT HOME BEFORE GOING OUT

It's really easy to use, your customer can do everything on your App, they can book a table, choose from the menus. In a few clicks they are ordering and paying for their food and drinks from home even if you are closed at the time.

It's great for you as you can plan for their arrival in the kitchen and organise the seating in the restaurant. There are lots of savings for you, less "No Shows" as they will have paid upfront, quicker turning of tables, less staff and food waste.

ORDER AT TABLE - Drop in customers

Customers that drop in can be seated when they arrive. Using your App customers can safely order their food and pay in advance from their table reducing the interactions needed with serving staff.

REWARD LOYALTY

Encouraging customers back after lockdown by providing discount codes for all self-ordering customers. Provide incentives to take food selfies and post on social media. These pictures will help show your community you are back serving them.

When people see you are taking precautions to keep them safe, they will be wanting to choose you. CleanClicks gives you the ability to build a closer relationship with your customer as it will allow you to create specific offers to keep them coming back time and time again.

Takeaway Ordering

Restaurants/Cafes/Fast-food outlets

From the comfort of their own homes, your customers can look online at your full menu including pictures and allergy warnings from any smart device/PC via your App. No searching the internet, your

name will be on their device. In a few simple clicks they will have placed their order and paid for their meals and drinks ready to deliver or collect.

KEEPING EVERYONE SAFE

Using your App your staff and customers can stay safe. We also included a special feature where your customer can provide instructions as to where your delivery driver can leave their food. This is really beneficial for shielding vulnerable households.

No Website Required

No Website or Epos system, no problem, our stand-alone ordering solution means you can have your menu online for all to see without the need for a website. This service allows you to fully manage your customer's orders via our portal on any internet-enabled device (Tablet/Laptop/PC or Smartphone).

PRICING

Bespoke solutions from £45 per month.

Flexible 1-month contracts available

PRICE COMPARISON...Even better news!

How do we compare against other online takeaway solutions that are out there like Just Eat, Uber Eats and Deliveroo? Have you checked your statements to see? If not let us do that for you but experience tells us this

They typically charge up to 20% on collection orders meaning a £20 collection order would cost up to £4.00 to process.

The same transaction with our safe self-ordering service takeaway would typically cost 63p.

THAT'S A HUGE SAVING TO YOU OF £3.27 ON EACH £20 TRANSACTION
